SHARPENED Pencils with erasers (Bring to class everyday.)

Earphones (Bring to class everyday.)

Basic Function Calculator

MATH SUMMER ASSIGNMENT -Mrs. Branch (8th Grade/ Algebra 1 for Middle School)

Dear Students and Parents,

This summer I would like for scholars to complete a Free Online Student Course. **How to Learn Math** is a free class for learners of all levels of mathematics. There are 6 sessions, the first three are approximately 10 minutes long and the last three approximately 20 mins long. It combines really important information on the brain and learning with new evidence on the best ways to approach and learn math effectively. Many people have had negative experiences with math, and end up disliking math or failing. This class will give learners of math the information they need to become powerful math learners, it will correct any misconceptions they have about what math is, and it will teach them about their own potential to succeed and the strategies needed to approach math effectively.

Main concepts to learn in this course:

- Knocking Down the Myths About Math
- Math and Mindset
- Mistakes and Speed
- Number Flexibility, Mathematical Reasoning, and Connections
- Number Patterns and Representations
- Math in Life, Nature and Work

There are no prerequisites for this course.

***PLEASE NOTE: YOU WILL NEED INTERNET ACCESS. PLEASE VISIT THE LOCAL PUBLIC LIBRARY IF YOU DO NOT HAVE ACCESS AT HOME.**

Sincerely,

Mrs. Helena Branch (hfbranch@cps.edu)

Math Supply List 2022-2023 School Year
