

Durkin Park Remote Learning Plan

During the school closure, Chicago Public Schools' goal is to provide students with remote learning opportunities to help minimize instructional loss, provide students with routines and structures to help stay engaged and connected, and ensure that students are healthy. Durkin Park school will meet these goals by implementing the plan below.

This document summarizes our plan by telling you:

- 1) The minimum amount of time your student should spend in structured academic activity.
- 2) How we will communicate with you and when learning materials will be posted.
- 3) What key learning platforms your student will use.
- 4) How your student can access their teacher, and when they should expect feedback on work submitted.
- 5) How your student can access learning materials if you don't have easy access to a computer.
- 6) How we will communicate with you as a school, along with how your student can get support during the school day if they are stuck on an assignment.
